

A PITCH FOR YOUR SOCIETY

# NoBrokerHood. A safer, simpler society.

PRESENTED BY SURAKSHAA

## WHY NOBROKERHOOD?

# Your gate is your society's weakest link. Or its strongest.

### WITHOUT NOBROKERHOOD

A paper register nobody can search

A WhatsApp group with 40 messages a day

Dues chased flat by flat, month after month

No record when something goes wrong

### WITH NOBROKERHOOD

Every visitor approved with one tap

One app for notices, dues and complaints

Payments collected online, on time

Every entry recorded with photo and time

ABOUT NOBROKERHOOD

# One platform. Every part of society life.

INDIA'S LEADING SOCIETY MANAGEMENT AND GATE SECURITY APP — ONE LOGIN FOR RESIDENTS, GUARDS AND THE COMMITTEE.

## Security

- Visitor entry approved by residents
- Staff and domestic help attendance
- Delivery, cab and vehicle management
- Guard app with photo and time logs

## Operations

- Maintenance billing and online payments
- Society accounting and audit reports
- Complaint helpdesk with tracking
- Notices and circulars in one place

## Community

- Amenity and clubhouse booking
- Polls, events and announcements
- Resident directory and groups
- Committee dashboard for everything

Trusted by thousands of societies across India · Resident app · Guard app · Committee dashboard

## FEATURE SPOTLIGHT

# Visitor Management: every entry approved, every entry recorded.

**THREE STEPS. UNDER THIRTY SECONDS. ZERO PAPER.**

1

### Guard logs the visitor

At the gate, the guard enters the visitor's name, flat number and purpose in the guard app and takes a photo. No paper, no handwriting.

2

### Resident gets notified

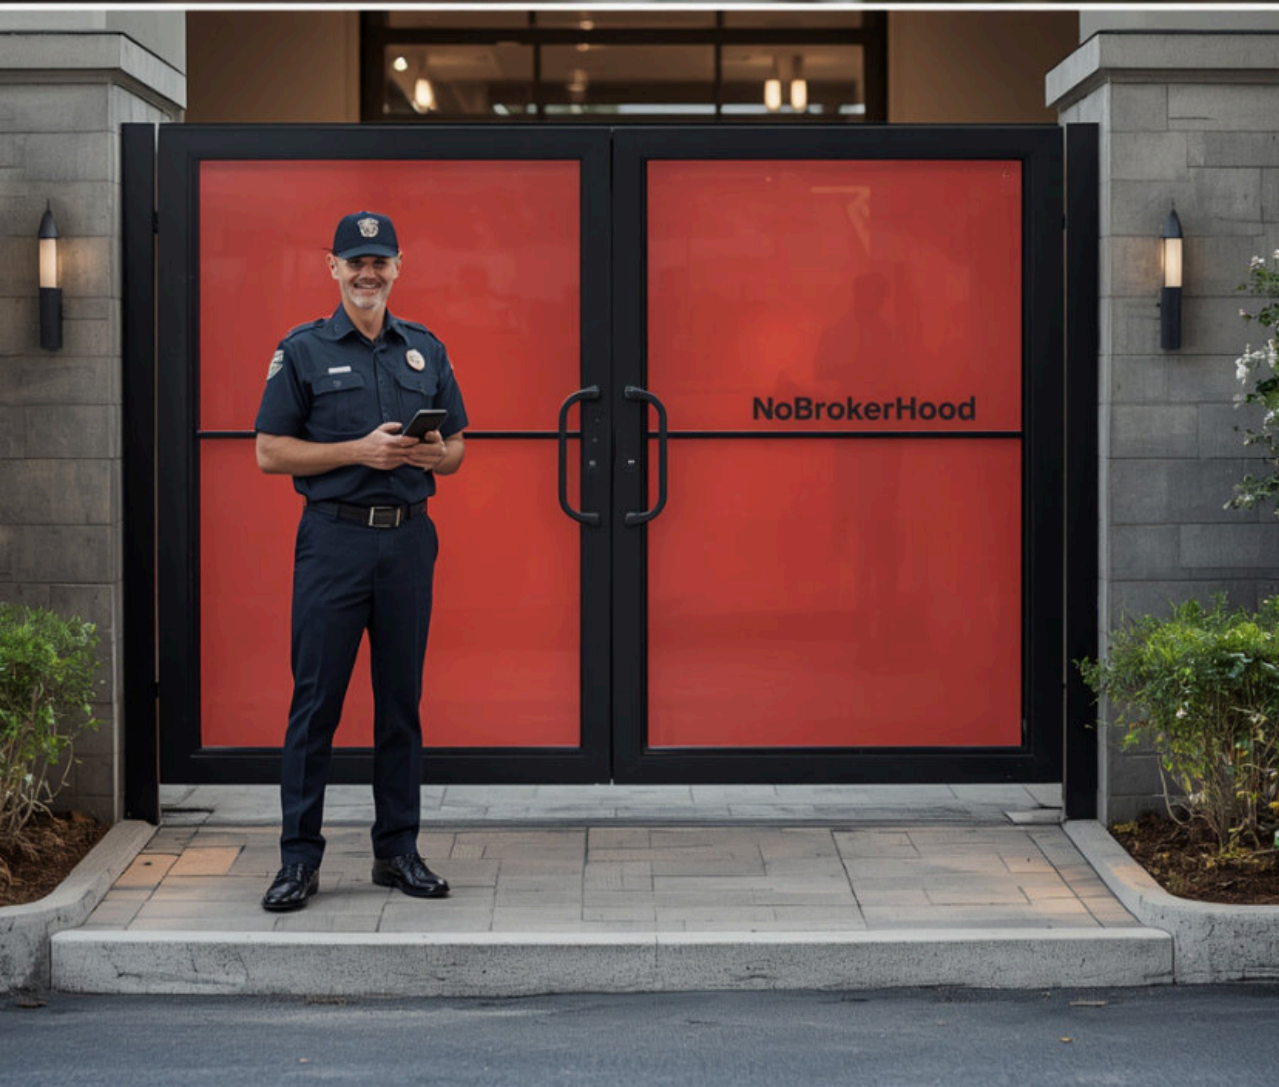

The resident's phone buzzes instantly with the visitor's photo and purpose, wherever they are: at home, at work or travelling.

3

### One tap decides

Approve, reject or leave at gate. The guard sees the answer on screen and the entry is saved with photo, time and purpose.

Also built in: pre-approved guests, deliveries and cabs enter on a passcode with no wait · domestic help and staff attendance tracked automatically · the full register is searchable by name, flat, date or photo.

VISITOR MANAGEMENT IN ACTION

What changes at your gate

THE SAME DAY, BEFORE AND AFTER, FOR EVERYONE INVOLVED.

|           | BEFORE                                                                     | AFTER                                                                                         |
|-----------|----------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------|
| Residents | Guard calls, nobody answers, an unknown visitor reaches the door.          | One-tap approval on the phone. Deliveries and cabs enter on a passcode, no call needed.       |
| Guards    | Paper register, arguments at the gate, blame when something goes wrong.    | Clear instructions on screen. Every entry logged with a photo, so the record speaks for them. |
| Committee | No idea who is inside right now, and no record to check after an incident. | Live count of who is inside, staff attendance reports, a full audit trail one search away.    |

Everyday cases it handles: late-night cab entry · unattended parcel handover · school-van pickup verification · tenant move-in

THANK YOU
